This ensures that your race results are accurate and that you are placed in the correct category and rank. It is recommended that you pin your bib using four safety pins to ensure it stays in place throughout the race. Additionally, make sure that your bib is visible and not covered by clothing or other gear that may obstruct the view of the sensor. Following these guidelines will help ensure a smooth and accurate race experience for all participants.

5. A participant who commences starting before the starting time of the race will be disqualified.

6. Participants caught cheating will be automatically banned. The organizers take a serious view of such actions.

1. Mandatory Equipment: All participants agree to abide by the stated mandatory equipment list. Failure to do so during the event may mean time penalties or possible disqualification. The mandatory equipment list is there for your safety.

2. A timing chip will be used to record individual times. Proper placement of the timing chip is extremely important, and the timing chips have a 99% average read success during most races. While every care is taken to ensure that the timing chip is in working order when given to the participant, the Organizer shall not be held liable in the small chance when a timing chip does not have a successful read after the race. No refund or consolation will be given to the affected participant(s).
